ACKNOWLEDGMENT

First and foremost, we would like to take this opportunity to thank our faculties for giving us this opportunity.

We are extremely delighted to take this golden chance to express our sincere gratitude to those who have been helpful to us in making this project successful. We would like to say special thanks to **Mandeep Singh Sir,** his valuable suggestions and remarks made our project a more meaningful one. Last but not least, we

would like to thank our organisation for their immense support during the project.

Abstract

The main idea is to create this website where a user can get all the possible information that one could ask about the adventure ideas and adventure places and reducing one's time consumption and energy. In this project, we will propose a model where a user can explore all the locations and adventure ideas according to their interests. We provide the different adventure ideas with the places of the adventure activities on different and affordable packages. We also provide the customer reviews, vlogs and also our featured products according to the adventurous

activities. These mentioned things are possible with the help of JavaScript, HTML and CSS.

5. Limitations of the project proposed

- Internet connection is required for accessing the website.
- In this project we are providing every thing manually, this can sometimes cause a burden to maintain the records.

6.Conclusion

The conclusion of this project is that Unleash Adventure is a computerized managed website. This website keeps the records of hardware assets besides software of this organization. The proposed idea will keep a track of its subscribers and will focus on providing the best suitable places according to the taste of the user. It will also motivate the user to try out the new places and see themselves what they are missing by not travelling and exploring.
